GILLARD'S

This Dip is most carefully prepared by the latest improved methods and can be used with

SANDRINGHAM
TESTIMONIALS.

From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
"The market is being flooded with sheep dips, some of which are all that is claimed, and also by some which are worth little or nothing. Our readers will have noticed that *several preparations have been mentioned in letters recived from the camp showing that there are several good preparations.*"—B.A. HERALD.
NOTE—A sample drum will be supplied gratis to any Estanciero who is willing to give the Dip a fair trial and report on same

HAVAS' AGENCY

New York, Aug 29th.

President Garfield's condition has been most critical for the past few days, his death being expected momentarily. To-day, however, the doctors report a slight improvement, although they consider the wound in the stomach as still excessively dangerous.

THE MONTH'S LIQUIDATION.

If we had a Solon in B. Aires the liquidation of the mouth's accounts on the Bolsa would receive the attention which it merits. Crowded as the hall was yesterday with men of every genius and every capacity, and stirring as was the scene to even the most casual observer, so intent were they all on their individual affairs, the rise in stocks, the fall in gold, that we do believe the boys who fringe the sidewalk selling violets or boxes of wax matches took as comprehensive a view of the unsurpassed picture which this day's liquidation afforded as the King of the Bank Share market, when he walked the hall with the whole share capital of the Bank under his arm.

That shares should fluctuate, and quotations run up or down, is nothing extraordinary, since it is the history of those places "where merchants most do congregate." The speculation in Nat. Bank shares during the month has perhaps exceeded every anticipation. We shall not discuss either the cause or the effect of that extraordinary speculation, since our object in writing in this column on the Bolsa liquidation is rather to treat of the country as reflected by the Bolsa than to treat of the Bolsa as photographed by its stocks.

No one can understand the figures on yesterday's black board who does not turn back for a year or two, and compare the quotations; nor even can the mere figures of our stocks and shares afford a full view of the changes that have come over this land, when political events pregnant with great consequences, but which never gain foothold in the Bolsa, are found in the records of the past two years, illustrating greater changes, than can be gathered from the reading of our stock list. Everyone in the market will admit that speculation in gold is at least for the present over, nevertheless we find that the gold vencimientos yesterday amounted to 13,800,000 pats against 6½ millions on the 31st Aug. 1880. The prices of gold on these respective dates were as follows:—

Aug. 31, 1880, 30.75
Aug. 31, 1881, 25.60

In Cedulas the figures stand so:—

VENCIMIENTOS.
Aug. 1880, 3,192,700 price 82⅝
Aug. 1881, 2,726,000 do 98¼
Nat. Bonds Aug. 1880, 80
Do do do 1881, 93
Treasury Bills, 1880, 83½
Do do 1881, 128

Nat. Bank Shares, of course, showed the most remarkable change of all other stocks, and whether we judge them by their sudden rise in value, or by the extraordinary development of speculation in the stock, we confess to an anxiety as to their future quotation; but let us continue our comparisons.

VENCIMIENTOS
Aug. 1880, 14,700, price 58½
Aug. 1881, 131,977, do 124
Roads and Bridges—
Aug. 1880, 79½
Aug. 1880, 105.

The quotations in August, 1879 may also prove interesting—

Nat. Bonds 64
Cedulas 80½
Treasury Bonds 78½
Nat. Bank Shares 60⅝
Bushental Bonds 83
Roads and Bridges 75½

Cedulas do 4,118,000 pats.
Exchange 49

To moralize on our stock list is not our object, but rather to shatter the arguments of pessimists that all our improvement is artificial, all our progress the result of projects or new loans. The rise in our stock list, gigantic though it seem, is not a whit greater than the advance of our stocks on the London market. Central Argentine shares, B. Ayres Great Southern shares, Eastern Argentine shares, Hard Dollar Bonds, Public Works Loan, Liebig Meat Factory, River Plate Bank shares, Italian Bank shares, everything that we know of in this market, or in the London market, te connected with the Plate, all show the same splendidly increased values. Our public lands that in August 1879 and 1880 were selling to Messrs. Auld, Newland, Palavicini and Martinez, and hundreds of others, as the lists then published in this paper show, at $10,000 m|c. per league; go ask the holders of these lands the price to-day—and we are to be told that all this is sham and hollow. If such be the case, then the progress of every other country on the face of the globe is false and hollow, and those wiseacres who see in our present prosperity the seeds of a future crisis, may yet live to discover that faster than the growth of our debts and our obligations is that of our industries, our produce and our National wealth. We, for our part, close this chapter, confessing that we know of no other country possessed of greater untouched resources than this. These resources are rapidly coming to the front, and, with peace and good government, we may laugh to scorn apprehension of the future.

TRIP TO THE TRENT.

On Sunday last the R.M.S. Trent was visited by a distinguished party of Congressmen and others who had accepted Captain Hart Dyke's kind invitation to lunch on board the gallant ship.

At 11 a.m. about 70 gentlemen left the Mole-head, with the popular Captain of the Port, C. A. Mansilla. In a few minutes all were on board the Victorica. Amongst the many present we remarked—Senators Gelabert, Ortiz, Igarzabal, Barros, Figueroa, Carrillo; Deputies Olivera, Astigeta, Blas, Reyna, Rojas Asalon, Jofré Madariaga, Pizarro, Cavia, Del Carril, Quirno, Fernandez, Mallea, Quinteros, Pereyra, Corvalan; Messrs. Valdez, Rojas, Obando, Mansilla, Caraballo, Shaw, Ormo, Arnaud, Barrio, Stein, Mejia, Varas, and many more whose names we forget.

The Victorica put on all steam, whilst on board wines, beer, coffee, tea, sandwiches, &c., formed a desirable prologue to the lunch on board the Trent. The time passed rapidly, and at 12½ a.m. the Victorica arrived alongside the packet, as majestic a steamer as one could desire to see.

The commander and officers, in true English style, welcomed the guests on board, where all had an opportunity of admiring the order, cleanliness and taste that distinguish all British vessels from those of all other nations. Comfort smiled in every nook, and all felt as at home when resting in the spacious saloon. Meantime others visited the steamer from top to bottom.

The Trent measures 350 feet in length by 39 in depth and 33 in breadth. She can carry 4,500 tons of merchandize, 128 first-class passengers, 50 second-class and 350 third-class. Five officers, five engineers, two doctors and 100 subalterns, attend to all the wants of the ship. The machinery, as is always the case, came in for a large share of admiration. The berths and saloon looked so tempting that several Congresales expressed a desire to leave for Europe in the Trent.

At half-past one all sat down to lunch. The table was tastefully adorned with flowers and vases, presenting a beautiful 'coup d'œil.' This apology for a lunch, since it partook vastly more of a banquet, lasted two hours, and all the guests evidently relished the cooking. Many of those present, having coursed in the aisles of the Cordoba University, thought of Horace and his 'mensai,' whilst the bright, enlivening Falernia flowed, distilling wit and 'bon mots' all round. Toasts succeeded each other rapidly, and the tenor of some may be imagined when we consider that nearly all the guests were members of Congress or of the Press, Amongst those who spoke we noticed Messrs. Pizarro, Quinteros, Enciso, Reyna, Mansilla, Captain Hart Dyke, Madariaga, Stein, Rossi, Caraballo and several others.

The toasts were as follows:—

Mr. Pizarro 'To Queen Victoria.'

Do. 'To R.M.S. Company.'

Mr. Mansilla 'To the President of the Republic, Argentine Congress and to the Minister of War.'

Mr. Quinteros 'To the Company and its success.'

Mr. Enciso 'To the English Nation and to the prospects of Saxon Emigration to the Plate.'

Mr. Madariaga 'To England, as the first Power which recoguized Argentine Independence.'

Several toasts followed, all to the same point, but unfortunately we cannot recollect them.

At half-past three the party left in the highest spirits, and unanimous thanks were tendered to Capt. Hart Dyke.

The Victorica entered the Boca, as many Deputies wished to see the harbour. At 5 a.m. all landed.

The Deputies did not conceal their satisfaction with the trip on board the packet, and, no doubt, are looking forward to another.

ROSARIO.

(*From our own Correspondent.*)

August 26th.

Before the epoch of Railways the Argentine Republic was essentially the province and city of Buenos Aires. In fact, in Europe the whole country was generally known as B. Aires, and it is comparatively a recent period when this cognomen was changed, and the nation became known by its proper name. In those days the Porteños accredited the country with the capital derived from wool, hides, and tallow, and nothing more, and looked at the building of the Central Argentine Railway as an expensive luxury, useful for nothing but for a military road by which soldiers might with celerity be carried into the Interior to put down revolutions in the provinces. Wonderful as it may appear, we yet cannot doubt, that in a very short time wool will not be the principal production of the Argentine Republic. I was struck forcibly with this fact on reading the other day an account of the wine establishment of Messrs Marenco & Cereseto, in San Juan, founded on the celebrated cellars of Bergallo & Co, who were the first to introduce San Juan wines into the market of Buenos Aires. The cellars of Messrs Marenco's establishment are seven metres below the surface, and are eighty-five metres long by thirty two in width, in three naves, arched in masonry throughout. This cellar contains one hundred and eighty enormous tuns. The building above the cellars is the same length, but thirteen metres wider. These dimensions prove that this establishment can compare favorably with the principal ones in Europe. In the upper buildings the wines for exportation are bottled or barreled. At the time we are writing it contains upwards of three thousand pipes and seven thousand half pipes of wine. Another section of this grand establishment is devoted to

SUTTON'S Famous Home-Grown Seeds 'SPECIAL' collections of Vegetables and Flowers. Choisest Assortment. Sole Agents MOORE & TUDOR, 93 Maipn.

distilling, for which purpose the most modern improvements have been introduced. The only liquor distilled is that from the grape. A third section is the cooper's shop, where twenty men are continually at work, and turn out from eighty to a hundred pipes and half pipes. In this one establishment, five thousand pipes of wine were produced this year, and double or quadruple can be produced when the railway shall take it from the storehouses and carry it, without transhipment to Rosario. The province of San Juan can easily produce a hundred and fifty thousand whole pipes of wine, which, it is estimated would be worth ten millions of fuertes; and in other words, will give Mr Clark's railroad upwards of five millions of arrobas freight, and the Senate is haggling over the question of whether the guarantee be paid in gold or in bonds, when it is very improbable that the Government be called on for a penny of guarantee money; for what with wine, liquors, dried fruit, wheat, and minerals, the Great Andine line will pay its way without assistance from the Government.

But what is destined to take the shine out of wool and hides is sugar. This regal commercial commodity will in time become the most valuable of all our exports. The Transandine Railway will carry it cheaply to Chile, where it will speedily monopolize that market, for neither Peruvian nor Brazilian sugar can compete with it. The Chilians are much more fastidious than we are. They will not use either Brazilian sugar or Brazilian coffee. They import the former from Havana, and the latter from Havana and Venezuela. Argentine sugar, taking the best samples produced as yet, and it will go on improving, is fully equal to Mauritius, Egyptian and Java, the better class of which is worth in the London Market from 25 to 28 shillings the cwt., whereas the best class of Brazilian is only worth 19 shillings and six pence. I have already seen some samples of this year's sugar, with small but beautiful crystals, and as white as the best refined, and which undoubtedly would fetch 28 shillings in London.

It is only until very recently that the only lumber used in this country for carpentry and furniture was North American pine, and even of this the most common qualities only come to the River Plate. I have never seen yet a cargo, or even a part cargo of clear lumber brought to these markets. 'Clear lumber' is the denomination given to boards without knots.

Argentine cedar is now so common that it must already have interfered materially with the importation of American and Canadian pine. Shop fittings and furniture now use up large quantities of cedar. This wood is so beautiful, so easily worked, and so superior in every way to pine, that it is merely a question of cheapening its transportation, to bring it into universal use. A very short time ago a plank of cedar was a curiosity; now, in every carpenter's shop we find piles of boards of every size, and it is becoming as common as pine.

The last eight or ten days, or ever since the great fall of rain on the 16th, have been characterized by the balmiest of spring weather. The estancieros say that on still nights they can hear the grass grow. It was about time. It the Clerk of the Weather will only be so good as to keep Mr Hoar Frost under lock and key until the next season, we shall have a year of unexampled prosperity. As yet no locusts have made their appearance, and we have strong hopes that after devastating the country during seven years they have finally disappeared.

The French Company, Chargeurs Rennis, will soon put on the Rosario line two monthly steamers from Havre. This will be a serious competion to Messrs. Lamport and Holt.

The Archimedes is filling up in San Nicolas: she loaded a considerable quantity of minerals in this port, but only a few hides.

The health of Rosario has greatly improved since the rain-fall. Santa Rosa is asleep yet. She has not called for her bath and coffee; but the wise-heads shake their polls.

W.P.

EDITOR'S TABLE.

Santa Rosa came and went this year in the most ladylike manner; no excessive noise or clatter upstairs as usual, but just the proper allowance of thunder and lightning on Monday night, to announce her arrival, and then a steady downpour for the best part of Tuesday. Nothing could be nicer, and estancieros all looked joyful yesterday. Such splendid rain is worth trillions to the camp.

The news by the Maskelyne and Congo is very interesting. The Irish Land Bill is law, and the first step of the Government after it passed was to release Mr John Dillon, M.P., a wise conciliatory act that cannot fail to have an excellent effect. A good harvest now would go far to restore Ireland to an orderly state. The Socialists have threatened to murder Prince Bismarck. Another important item from Germany is the rumoured intended abdication of the musical King of Bavaria, and the Emperors of Germany and Austria had a long chat on the subject when they met at Gastein last month. Italy evidently thinks that there are stormy times ahead of her, as she has ordered two more enormous ironclads, although her last effort in this line, with the Duilio, was anything but a success. We give in our supplement an account of the wildest scene as yet in 'the first assembly in the world'—the expulsion of Mr Bradlaugh, M.P, by force from the House of Commons. Mr B. fought like a true Briton—like an ancient Briton— and the police and officials of the House lost all their coat collars in the scrimmage. The mob cheered Mr Bradlaugh to the skies, pluck against overwhelming odds having still its most legitimate fascination for the British 'plebs', and we hope it always will, although its display by a Member of Parliament against the authority of that august body can hardly be called edifying. Poor Kenealy wasn't a patch on Bradlaugh in a row with the police. The late Mr Rae of Belfast came nearer to him.

Mr William Martin will deliver a lecture on Elocution this evening (Thursday) in the School Room of the Scotch Church, to the members and friends of the Excelsior Society. The lecture will be interspersed with readings by the lecturer. To commence at 8 o'clock.

Madlle Paola Marié, the prima donna of the French opera company, was kind enough to send us her card yesterday, to say 'bon jour!' We 'place ourself at her feet,' and anticipate with pleasure the duty of recording her artistic triumphs during her stay here. M Mouge, the baritone, was kind enough to drop into Printing House Square in 'propria persona;' he told us of the company's great triumphs in Montevideo; we wished him the same success here and showed him over our museum, which rather astonished him.

A Lujan estanciero told us yesterday that he has never in his life seen the grass grow as it has done for the last week, and that the rain of Tuesday will crown the camp. For seven years there have been no thistles in the camps out there, but now they are springing up in all directions.

The story of our gay colleague *L'Union Francaise* about the Britisher in the Cafe Argentino is laughable enough, but we have seen it or something remarkably like it before.

The Rural Society advertize their coming Cattle Show in our columns to-day. The 22d inst will be the day; all kinds of agricultural machinery etc, will be accepted.

Some of our native colleagues are working up a heroic atmosphere round Szemeredy, by giving long sensational accounts of his life, adventures etc. It may be doubted if this will favour the ends of justice, or even his chance of acquittal, if this be the object.

We have to thank a Scotch farmer at Bahia Blanca for his kindness in sending us samples of the grasses down there. We invite all those interested in camps in that quarter to come and see them.

We feel pleasure in welcoming Mr Biekhart, the Allsop of the Plate, who has just arrived from Europe in the Congo.

The news from Montevideo yesterday was that Santos is losing ground in public opinion every day (if he had any to lose) and many of the highest officers in the army are hostile to him. There will be something hot on the other side of the river before long.

The Knights of the Night still supply filling stuff for our colleagues. It is said that the police have made other important discoveries in connection with the affair, but this is the stock 'on dit' in all such cases.

The *Libertad* of yesterday contained a very important letter from Minister Garcia, in London, to the President of the Republic, on the subject of Irish emigration to this Republic.

We are requested to state that the Special Meeting of subscribers to the British Hospital announced for this day has been postponed till Tuesday the 6th inst., as per advertisement.

The Municipality have at last fixed on a Telephone regulation edict which will be promulgated shortly. It is based on the French system. The 'empresarios' will have to deposit 4000 pats caution money and also pay a duty of one pat annually for 'cada via publica' crossed by the wires. If 'via' means street, it will cut into the profits—if any.

The musical world is in a pleasurable flutter about the grand concert to come off at the Opera House to-morrow by the pupils of the Conservatoire. The programme is very varied, well-selected and extensive, and the best pupils of the academy will appear. This institution has made such strides of late that a public appearance of its pupils is of unusual interest,

We are sorry to hear that our sporting brother at the Minerva was robbed yesterday morning at daylight. A burglar 'penetrated' the place and made off with Treasury Bonds worth 980 pats. Fortunately the thief knocked against a policeman at the door and was secured at once.

We much regret to announce that Mr Stoppani, sub-manager of the Italian Bank, was thrown from his horse at Palermo on Monday and had his right arm broken. We hope for his speedy recovery.

Madame Privat took her farewell benefit on Tuesday at the French Theatre, and, as was to be expected, the house was crowded from top to bottom. The comic opera of Carmen was performed, and this charming prima donna, whom we have repeatedly had occasion to eulogize, sang better than ever, and was deservedly received most enthusiastically with various presents and showers of bouquets. To enhance the evening's entertainment the public was regaled by the presence of most of the principal artists of the Grau Company, one of them being a remarkable beauty, creating quite a furore amongst some of the 'jeunesse doree,' besides making a strong impression on others who have had opportunities of seeing a great many actresses of all nationalities.

Oh! The *Patria* of Montevideo declares that Colonel Latorre is still in Rio Grande, concealed in an estancia six leagues from Bage, and that it is all nonsense about his having been in Buenos Aires. The Suarez fiestas are all over and people are trying to settle down to business again.

From Mendoza and Santiago del Estero there is news of the Indians having been overtaken and cut up by Commander Torre and Captain Ovejero. In the battue into the Chaco, by the latter officer, two caciques were killed.

The steamer Tridente leaves today, as usual, for Rosario and ports. Train leaves Central at 3,15 p.m.

The unfortunate emigrants lodged (save the mark!) in the Hotel de Inmigrantes at the Retiro were washed clean out of it by the rain on Tuesday. The Italian Exhibition building has been offered to the Government as an Asilo, and if no better place can be had, it should be taken at once, as it is cruel to house new comers in such a sieve as the old house in the Retiro.

ON 'CHANGE.

	Aug. 31st
Patacons	25.70
Cedulas A	98 1/4
National Bank Shares	123 1/2

The gold market opened stiff, and spite of the Bank measure raising the rate of exchange to 46 1/2, and the arrival of the Maskelyne with 100,000 sovs. from London, the price of gold advanced, which shows the tremendous indebtedness of the Bolsa in gold to the banks and the market. Although the vencimientos were simply enormous, it only took 189,450 pats cash to close up accounts. Sales for end of the month 260,000 pats at 25.50, which shows a difference of 20 cents between the price cash and the end of the month. The gold by Maskelyne, 20 cases, 55,000 each, will be up in the morning; thanks to the attention of Captain of Tridente the Maskelyne's mails came up last night and were delivered to-day.

Cedulas opened weak and grew firmer, but the market shows no animation; the only sales were for cash 32,450, opening at 98 3/8, rising to 99 and closing at 98 1/4. Buyers on time offering, but nothing done.

National Bank Shares ruled even but weak all the morning and just slipped away about 1 o/o, which is a mere nothing in presence of their enormous rise; the cash sales amounted to 3,670 shares, opening at 124 1/4 and closing at 123 1/2, and for end of Sept. 6,680 shares, opening at 122 1/2 and closing at 121 1/4. But before the brokers finished their lunch there came a burst of thunder over the room, and like wildfire the news spread that one well-known broker had stopped, being unable to find the trifle of three millions to cover Bank Share differences. At 3 o'clock things were getting in the room to a white heat, and the news was that the Government broker had bought 1,000 shares for Sept. at 121.

At all the banks there was a strong demand for money, 12 o/o was freely paid to carry shares. Around the Bolsa gates crowds of Italians stood, dabbling in shares. It looks on the cards as if all the shares of this bank pass into Italian hands, and then we shall have two Italian banks in this market.

The Maskelyne, Chevalier Hairby, Commander, has arrived and will be up in the morning; she made as usual a capital run out, and brings a tremendous cargo, 29,238 packages; we looked over the manifest and were fairly dumbfounded at the quantity of wire she has brought; verily enough to wire in Mr Casey's Duchy of Curumalan. She has brought 30 fine rams for Mr E Casey, 7 fine horses, 1 bull, and 1 cow and calf to Wallace; and we note in her passengor list the names of many old friends who return to us, beaming with smiles after a year's tour through old Europe. The Maskelyne was detained 2 days by fog at the mouth of the river.

Messrs Woodgate Bros. give the following summary of our month's shipping business; the figures are most important:—

Freights—This has been a very dull month and the rate for Antwerp has varied from 20s to 25s, but during the last few days there have been some heavy sales of wool, chiefly for account of French houses. The number of bales of wool sailed and engaged to date is 200,741 against 218,508 last year
203,720 in 1879
210,756 in 1878
224,788 in 1877
207,687 in 1876

In sailing vessels we have to report a fair number of charters, and close the month with 36 vessels or 15,622 Reg. Tons disengaged.

The sales at the ring were—
For cash 1,189,452 25.60-65-70

Liquidation, 124
Old Gas Co. Shares—
For cash 62 shares at $2,200

The Germ. str. Hamburg has been detained at Montevideo on account of bad weather; she left yesterday for here.

The liquidation closed amidst great excitement; first the Bolsa auctioneer mounted the table and called auction to buy gold—
10,000 pats at 25.55
5,600 " 25.60

When he retired people began to breathe freer as they thought in the Hall that all was over, but they counted without their host, and the auctioneer again mounted his table close on 5 o'clock to sell Cedulas and buy Bank Shares—
Cedulas—
7,000 sold at 98 1/4

And then the auction of auctions began to close the Nat. Bank Share liquidation, which owing to the failure of a well known broker compelled the liquidator to buy 2,580 shares; the auction was as follows:—

100 shares bought, first price offered 130,		last 125

2,580 shares.

It seems that by mistake 50 shares too much were bought.

The liquidation of these Bank shares proves clearly that the tremendous speculation going on is not by the Bolsa, but by people outside, since the Bolsa and its ring is far too light for so heavy a business.

The failure of this broker in question will have its consequences in Sept., and will take from many some of the gains in the stock which they counted on. However, for some time back the party in question was spoken of, and the matter was really no surprize; far greater surprize that with so serious a break down everything passed off as quietly as it did.

In wools nothing done worth reporting and very little in. We were in error in the news we gave about Mr Ham's race horse at the Once.

We are requested to suggest to Mr Parish, the President of the G. Southern Railway, the necessity of altering the freight tariff, and charging a lower rate to wholesale parties who forward 40 tons and upwards. Wire and posts are going by water to Bahia Blanca, when by right they should go by rail as quicker, but the freight on small goods and on large consignments appears to be the same.

All during the afternoon the share market ruled very hard for September; many bought cash at 121 and sold for Sept. at 123 1/2, making a splendid interest. About 2,000 shares sold at afterhours; at one time prices dropped to 120 1/2 and then jumped back to 123 cash.

The Bank only discounted to-day a million; few applications, and although it advanced the rate of exchange has drawn but little.

Messrs Ebbeke & Dickelmann sold the house corner of Artes and Santa Fe, 40x45, for 490,000 m/c. Buyer Mr Jorge Tornquist.

The Thales has arrived; she brings 1,000 tons cargo.

Mr Hardy, who has returned from Paraguay, was welcomed on 'Change.

Exchange in Valparaiso shows great improvement, having risen from 30 to 32.

We hear that a large territory, 300 square leagues, in the Provinces offered for sale in London could not be sold.

This was the great battle day on 'Change, and long before the opening of the ring the hall was filled, all the brokers up to their ears with liquidations. The splendid rain, which was so much required for the camp, and the entry of the Maskelyne, Chevalier Hairby, with ONE HUNDRED THOUSAND SOVEREIGNS from the Bank of England for the Provincial Bank, put most people in good humour and made us all take a pleasant view of the situation, but the pressure of the liquidation was written on the brows of too many; never at any period in the history of the Bolsa had speculation assumed such dimensions, and some few who calmly surveyed the scene naturally asked where or when is the line to be drawn. We, for our part, think that to correct the abuse of excessive speculation the Bolsa Syndicate should interpose, and by making a new and a most necessary rule that Bank Shares on and after the 1st October, 1881, can only be bought or sold cash would at once meet the difficulty. For difficulty it is, and a very serious one, as the history of this business will yet tell. It was said on 'Change this morning that the total amount of business in Bank Shares for the liquidation between sales at the ring and at afterhours reached 300,000 shares, being five times the whole amount of shares subscribed for by the public as capital of the Bank; such an unmeasured speculation in this stock this month leads many to believe that for September the liquidation will reach 500,000 shares, and thus go on increasing in figures and intensity until the Bolsa Syndicate thinks proper to interfere.

Every security in this market suffered today to sustain this unmeaning speculation; Cedulas, Bonds, Treasury Bills, Gas Shares, Roads and Bridges, all had to be sold or pledged to raise money to carry the shares. The official amount of the liquidation was marked at 131,977, but this only represents the sales marked on the black board; the real liquidation ascended as we said to over 200,000 shares, and yet will it be credited that the total available stock in the market does not reach 40,000 shares? The real explanation of all this business lies in its simple history; the early buyers of the stock who made very much money sold out at what they considered top prices, say 114 to 115, and then conceiving that their throwing so much stock on the market would cause a commensurate fall, they sold short in order to make money both ways. The market dropped a little, which increased the snare, and the bears continued selling, but prices did not drop, on the contrary seeing the market rise in the face of their sales they turned round ran with the current and bought double and treble the amount they sold short. Thus a party who sold 3 or 4,000 shares short at 112 was, in order to cover, obliged to buy back 10 and 12,000 shares at 119 and so on. Thus the men who pay for the present rise are those who in the morning of this business made splendidly. There are a few who, contented with a clear gain of 100,000 or 200,000 pats, retired from the market and stand back satisfied with the result, nevertheless regretting that their shares which they bought at 70 or 80 and sold out too early at 115, they did not hold over for another week and make 10 o/o more, but in the interest of the market, and of legitimate trade, and of the credit of the Bolsa and its community, it is to be hoped that after the terrible liquidation of to-day some steps will be taken to put a check on this speculation.

Cedulas, the best stock in our market, were knocked down by Bank Shares. The official liquidation, which is very close on the whole business, amounted to 2,726,000, which is a large amount enough, yet at least nothing extravagant.

Gold astonished us all with the amount of vencimientos, 13,800,000; few in the market had the least idea that such a large amount stood for liquidation, but gold was delivered to-day by parties who sold months ago at 29.30 to 28.50. The business in gold is, however, rapidly closing up.

The following sales reported at the Plaza Once this morning:—
7,150 ar. of wool arrived.
1,220 fan. of maize and 435 fan. of wheat entered.
Produce market firm.
The sales were—
250 ar. of wool at 70, 50
200 doz. sheepskins at 23, 24 rls.
Desechos at 18 rls.
1,250 doz. corderitos at $13-14 1/2
140 cow hides at 170, 165
82 potro hides at 32, 34
Potrancas at 17, 16
185 ar. hair at 140, 138, 135
Ostrich feathers, 100 lbs. at 31
Deerskins, 120 doz. at 100, 103
Wheat, 300 fan., candeal, 157
Maize, 750 fanegas, morocho and yellow, in grain, at 50-52 1/2

It must strike every one as remarkable that in the debate in the Provincial Senate on last Saturday the estimates, or 'presupuesto' for the Mortgage Bank for the ensuing year were voted in conjunction with those of the Provincial Bank, whilst there are still parties who argue that this Mortgage Bank is not a Government Bank, and its credit not guaranteed by the Province. If such were the case we are at a loss to know by what right the Provincial Senate votes the salaries of the employees of the Mortgage Bank, names its President and its Board of Directors, and in one word controls the administration of that Bank, the same as of the Provincial Bank; and in the report of the Committee of the Senate on the Provincial Budget for the ensuing year a list of assets belonging to the Province is made out, and in that list the Banco Hypotecario figures as one of the assets. In the debate on Saturday on the Mortgage Bank Budget we are pleased to see that the salary of the President has been raised from $10,000 to $15,000 a month, and well he earns that salary. The salary of the Treasurer of the Provincial Bank has also been advanced from $12,000 to $13,000 a month. The Sub-Treasurer gets $7,000 a month, the six clerks in the office for the renewal of bills, an apartment where there is always a heavy business going on, get $3,750 per month, and the three clerks in the issue department get $2,700 each. The salary of the Escribano of the Mortgage Bank has been raised from $2,500 to $3,000 per month, and the 'presupuestos' of both Banks have now been finally passed. The responsibility and ownership of both these Banks by the Province of B. Aires does not admit of the slightest question; both are great institutions of which the Province may feel proud, and both should be well cared by the Provincial Government as independent Provincial Institutions, now that the city in which they both exist and were created has ceased to be Provincial.

The news from the Province of Santiago del Estero is particularly favourable, and if we are to attach credit to letters from there, that Province promises to be one of the richest in this country, owing to the great value which the 'quebracho colorado' has assumed, and which is the especial timber of Santiago del Estero. A French Company has just been established up there for the purpose of exporting to Havre the sawdust of the 'quebracho colorado', which is most invaluable for tanning purposes, and this new company will have a double market, since the timber which they saw will be all sold to the Government for sleepers for the railway, whilst the sawdust will be all contracted for by the French tanners. Most of the lands in Santiago del Estero owned by merchants and others in this city are covered with forests of quebracho colorado, and we were assured by a party on 'Change to-day that some of these lands are worth for the timber alone on them twenty thousand gold dollars a league. Aside, however, from the great value of these quebracho colorado forests, and their probable prompt development, the soil of Santiago del Estero is pronounced by competent judges to be better for sugar planting than even Tucuman, and at the rate that this sugar business is increasing in the Province of Santiago del Estero we shall have in a few years more Santiaguenian sugar in this market than we shall know well what to do with. We hear from Rosario that there are 30,000 empty barrels gone up to the Provinces for sugar, and these barrels we understand have all come from the U. States.

Cien leguas de Campo

En Santiago del Estero

Orden del Exmo Gobierno de esa Provincia

Con derecho a ubicar donde se quiera

Primera vez que se vende con esta condicion

SIN BASE ALGUNA

Venta a Plazos

En nuestra casa San Martin No 51

El Martes 20 de September

A las 2 en punto de la tarde

Venderemos al mejor precio y a plazos, por orden del Exmo. Gobierno de la Provincia de Santiago del Estero y con acuerdo de su Legislatura.

Cien leguas de campo, divididas en lotes de a cuatro, teniendo sin embargo el comprador derecho a tomar desde una hasta las cien.

El Gobierno de Santiago ha sido, como lo decimos, autorizado por su Legislatura a vender esta gran zona de tierra, pero a objeto de facilitar la operacion, la venta se hara sin otro piano que el de la Provincia, por cuanto se da el derecho de ubicar donde se quiera, dentro de los limites de la misma.

Con este derecho cualquiera persona que este en el secreto de la situacion de un campo inmediato a la plaza principal, a las quintas contiguas a la ciudad o por sus alrededores, puede pedir su ubicacion alli mismo, como tambien los que conozcan donde existen los que puedan tener pastos de primera calidad aguas permanentes, montes, etc.

El Gobierno de Santiago no pretende con esta operacion hacer un negocio.—Su objeto se limita a fomentar el progreso de su Provincia, poniendo la tierra al alcance de todo el mundo, llamando asi a su centro la formacion de grandes establecimientos y la poblacion consiguiente.

A cada comprador se le dara un boleto con un numero de orden y en el cual se fijara un termino para pedir la ubicacion,de manera que el primera que compre, sea el primero que elija y asi succesivamente.

Siendo la venta dentro del territorio de Santiago, ningun otro gobierno iniciara protesta alguna, lo que importara garantizar un titulo perfecto y libre de todo gravamen, habiendose resuelto que las escrituras se otorgen ante de oficina de un escribano de esta capital.

El pago se hara mitad al contado al estenderse la escritura y el resto a 6 y 12 meses en garantia del mismo campo.

En resumen—Jamas se ha puesto en venta un lote de tierra en iguales condiciones y desde hoy el publico debe preocuparse de averiguar en que punto pedir la ubicacion del numero de leguas que necesita para la plantacion de establecimientos de campo, ingenios etc.

No obstante de tener, aqui en Buenos Aires un apoderado general el Gobierno de Santiago nosotros daremos mas pormenores en nuestra casa San Martin 51.

The Maskelyne's Mails

London, August 5th

The House of Lords met an hour earlier than usual, and proceeded with the consideration of the Land Law (Ireland) Bill in committee, when several amendments were carried against the Government by large majorities.

In the House of Commons, Mr Redmond, to express his dissatisfaction at an answer given by the Secretary for War as to an outrage by soldiers in New Ross, moved the adjournment of the House, which on a division was negatived by 191 votes to 11. Mr Mundella, replying to Mr Bryce, said that the scheme for the future management of Christ's Hospital was under the consideration of the Education Department. Mr Gladstone declined to make any definite announcement as to the release of Irish suspects. He afterwards stated that the convention with the Transvaal Boers had been signed. The right hon. gentleman also intimated that there would be a Saturday sitting.

Our N. York correspondent states that the American Foreign Department has under consideration the question as to how far the country can be used as a base of operations by revolutionary societies and individuals in their war against established Governments.

The Austrian and German Emperors met as arranged at Gastein yesterday. The Austrian Kaiser arrived at noon, dressed in the Prussian uniform, and, after alighting for a moment at the hotel, went towards the Badeschloss, where the German Emperor is staying. The latter came forth to meet his Austrian brother; they embraced affectionately, and walked arm-in-arm to the Castle, where they remained in conversation together for three-quarters of an hour.

A Durban telegram states that the Transvaal will be transferred to the Boers on the 8th inst. Sir Hercules Robinson leaves for Cape Town on the 6th.

M Gambetta arrived in Tours yesterday to begin in reality the French electoral campaign. He made a brief speech in reply to the Mayor's welcome, contrasting the state of France at his last visit with her present condition. If they still suffered from recollections of defeat, it was at least in the midst of triumph that they met again. M. Gambetta was entertained at a banquet in the evening.

Baron Hanssmann has just informed the electors of Ajaccio that, although he has not come forward as a candidate, he would still consider himself bound to accept the trust if imposed upon him by the friendly Corsicans.

Further attacks upon the Jews are reported from Pomerania and other parts of Germany.

A telegram from Tunis states that the son of the British Consular Agent at Hamamet had been murdered by the insurgent Arabs. He was himself a native. Some three thousand French troops have landed at La Goletta.

Reports as to the condition of President Garfield continue exceedingly favourable. He gains strength rapidly, and is able on occasions to sleep twelve out of the twenty-four hours.

Twenty-two Cardinals attended the Secret Consistory held by the Pope at the Vatican, yesterday. His Holiness made a speech, in which he is said to have referred to the recent disturbances in Rome at the transference of the remains of Pius IX., but the address has not yet been published. Pope Leo is stated to have appeared unwell.

There is alarm as to possible Fenian designs at Woolwich Arsenal. On the roof of what is called the Home Office Magazine, where are deposited all the gunpowder, dynamite, and other explosives seized by the police, or unclaimed, a man was recently noticed under suspicious circumstances. When he saw he was observed he made off, at considerable personal risk, and escaped; but precautions have been taken against any possible contingency. Something which looked like an infernal machine was found on the steps of the Corn Exchange at Luton yesterday. There was stuff resembling gunpowder in it, but it did not explode when a light was applied.

In the Central Commercial Court, yesterday, Patrick Tadford Hickie was charged with threatening to kill Mr Forster, Chief Secretary for Ireland. He presented the alternative to Mr Forster of releasing prisoners arrested under the Coercion Act and resigning his office or being shot. The jury found the prisoner guilty, but recommended him to mercy. Sentence deferred.

Sectional meetings in connection with the International Medical Congress were held yesterday. There were fifteen of these in all, and in every one important questions bearing on medical practice and science were discussed. Visits were paid to the principal London hospitals, and to the schools and museums in connection with these. The members of the Congress were entertained by the Lord Mayor in the evening.

Communication was made to the Commissioners of Sewers yesterday, by Sir Edward Watkin and Mr Forbes, that, if the amount contributed by the Commissioners and the Metropolitan Board of Works were increased from £750,000 to £800,000 they would recommend to their shareholders the completion of the Inner Circle Railway. The Commission agreed to increase their subscription by £50,000; and it was stated that within eighteen months this long-deferred work would be accomplished.

Prince and Princess Christian yesterday opened a bazaar at the Grove, near Watford, in aid of the funds of the Hertfordshire Convalescent Home, St. Leonards. The purpose is to reduce a debt of £700 that now burdens the Home.

At a special meeting of the Governors of the Brompton Hospital for Consumption, it was announced that the new extension building would probably be opened before the winter set in. An urgent appeal was made for the additional income of about £10,000 a year required to maintain this addition to the hospital.

Indications of dearer money, a further withdrawal of gold from the Bank of England, and a less favorable Bank weekly return affected the stock markets yesterday, most of them closing with a dull tone. Consols receded ¼. English railway securities did not vary much, and among Foreign Government Bonds the chief features were the strength of Russian and a slight relapse in Turkish. Sovereigns to the number of 10,000 were taken from the Bank for Buenos Ayres.

MR. BRADLAUGH AND THE HOUSE OF COMMONS.

SCENE IN THE HOUSE.

When Mr Bradlaugh, true to his promise, arrived yesterday at Palace-yard at close upon the quarter before twelve, the palace of the Legislature was almost in a state of siege, Some 250 men altogether were holding the fort. This civil force was acting under the direct supervision of the Chief Commissioner, Sir E. Henderson. The Assistant Commissioner, Colonel Pearson, was also in attendance. On the outside of the gates—in the trenches as it were—Superintendent Gurnon with a hundred men endeavoured to hold the besiegers at bar. Within, Inspector Denning had his ordinary contingent of fifty men, supplemented by twice that number.

Mr Bradlaugh's arrival was denoted by a tremendous cheer from the huge crowd extending from a good way up Parliament-street to St Margaret's Church. Before their determination to see and welcome Mr Bradlaugh the barrier of police, marshalled shoulder to shoulder in a line on the other side of the street, gave way like a fortress of sand before a rising tide. The hansom cab in which Mr Bradlaugh and his friend Dr Aveling arrived was completely surrounded in a moment. Of cheering there was no end, but progress was impossible, so the two had to alight a little way off, and to allow themselves to be borne by the crowd rather than to walk to the gates of Palace-yard.

As soon as prayers were over and the Speaker had taken the chair, Mr Bradlaugh advanced towards the doorway. He was immediately confronted by Mr Erskine, Deputy Serjeant, who informed him that his orders from the Speaker were definite and peremptory, and that he must bar his entrance. Mr Bradlaugh, protesting his legal right to enter, made a dash at the doorway, whereupon the messengers closed round him, seizing him by the arms and the collar of the coat. Mr Bradlaugh, instinctively selecting the biggest man among his assailants, closed with him, grasped him by the collar, and apparently nearly choked him. The man, nevertheless, held on, his hand at Mr Bradlaugh's throat.

The hangers-on in the hall noticed through the doors a rush of members in the direction of the path of exit which adjoins the carriage-way to the House. There was a speedy rush out of the hall, and round to the door in Palace-yard. Some thirty or forty members were already in the carriage-way waiting to see the ejection of their fellow-member from the adjoining doorway. A moment afterwards the now deathly-pale face and writhing figure of that member appeared at the door. A policeman held him, tightly by the right arm—a House official clutched him firmly on the left—policemen dragged him—policemen and messengers pushed him. Inspector Denning directing operations. This he did in a spirit tender and generous enough; but still force had to be employed to overcome resistance. It was a case of at least eight men against one, and the force in favour of ejection was aided by the pressure of members following the scene from behind. Yet the progress was slow. The strong, broad, heavy, powerful frame of Mr Bradlaugh was hard to move, with its every nerve and muscle strained to resist the coercion. Bending and straining against the overpowering numbers, he held every inch with surprising tenacity, and only surrendered it after almost superhuman exertions to retain it. The sight—little of it as was seen from the outside—soon became sickening. The overborne man appeared almost at his last gasp. The face, in spite of the warmth of the struggle, had an ominous pallor. The limbs barely sustained him. It became slightly doubtful whether the police were not sustaining the heavy exhausted frame rather than any longer resisting its backward pressure. The Trafalgar-square phrase that this man might be broken but not bent, occurred to minds apprehensive at the present appearance of him. The cheers and cries of 'Bravo Braddy,' 'British pluck' with which the crowd had greeted him, gave way to cries of 'Shame.' But the portals of the door were soon crossed, and the struggle was over. Inspector Denning then sent for water for his breathless and almost fainting charge. In the water Mr Bradlaugh dipped his hankerchief and cooled his temples, after his great exertions. The crowd, with difficulty kept back by a posse of police, remarked that in the struggle the coat of the member for Northampton had suffered serious damage. 'We will charge Churchill with that coat', said one, and the idea had in it sufficient humour to relieve the feelings after the trying scene. The House officials returned to the interior, while the police, like chivalrous conquerors, continued their care for the recovery of their exhausted opponent. Their attentions Mr Bradlaugh willingly enough accepted, but not until he had assured Mr Denning that the proceedings of that hour would lead to his making his way to the House with such force as would compel either his admission or his arrest. There is reason to believe, however, from what subsequently happened that this utterance was only the not unnatural result of the excitement of the moment. In the meantime the police endeavoured to obtain breathing-space for Mr Bradlaugh. This was by no means easy, considering the excitement of the crowd; and it seemed fortunate indeed for all parties, considering the feeling excited by the manner of Mr Bradlaugh's exit, that the crowd within the gates of Palace-yard was so small.

In course of time Mr Bradlaugh began to chat with Mr Denning on the struggle, and expressed a hope that one of the officers (Mackay) who had been knocked down in the scrimmage had not been hurt. Ultimately he arranged with the inspector that he would not again put him to the trouble of forcible resistance. After the result of the debate was made known he would make another nominal attempt to enter the House. Mr Denning might offer such resistance as would amount to a legal assault, and then he would go and take out a summons against him.

When the numbers of the division inside were declared about ten minutes to two o'clock, Mr Bradlaugh rose from his seat and made his advance on the door as arranged. Mr Denning stood in the doorway and declined to allow him to pass. The legal assault was committed by the inspector of police, and Mr Bradlaugh drove off in his hansom to take out a summons.

FENIANISM AT WOOLWICH.

REPORTED ATTEMPT TO DESTROY A MAGAZINE.

Our Woolwich correspondent states:—The War Office authorities and the police are investigating a reported attempt to destroy the Home Office magazine, situated in the Plumstead marshes, just below the Royal Arsenal, Woolwich. One of the foremen belonging to the laboratory department states that his attention was called by a boy to the presence of a man on the roof of the magazine, which is an isolated building, surrounded by a wooden palisading 8ft. or 9ft high, and nearly a mile from the nearest dwelling-houses, which are upon the river bank. Seeing that he was discovered the supposed Fenian descended from the roof, and, climbing the fence at the risk of injury from the tenterhooks with which it was defended, ran away in the direction of the river and escaped. The Home Office magazine is used as a receptacle for all the gunpowder, dynamite, and other explosives which may be discovered unclaimed or seized by the police. It is a strongly built structure of brick work, and it would be a task of some difficulty to break into it, especially now that the police have adopted additional precautions.

A telegram from Luton says:—Great excitement was occasioned this (Thursday) morning by the discovery of what was supposed to be an infernal machine on the steps of the Corn Exchange, Luton. It consisted of a tin canister with a long piece of wire, one end of which was inserted through a hole in the lid and the other placed under the door of the building. For a long time no one could be found to open the mysterious canister, but this was at length done by Mr. W. Philips, a borough magistrate, when it was found to contain a fuse made of tarred rope, a quantity of black powder, resembling gunpowder, but which would not explode when light was applied, and a lump of hard white material like putty, which has not yet been examined.

Messrs A. Eastman & Co.
Presente
Dear Sirs
I bought from you a quantity of your 'Golden Fleece Dip' and have used it on my establishment in Mar Chiquita. It gives me great pleasure to inform you that I obtained the very best results with it, losing no animal and none of the men suffering who cured by hand. Its price is so economical likewise, that on all grounds I can warmly recommend it to every estanciero as the best remedy against scab.
Please fill the order at foot and believe me.
Yours truly

Mrs S. A. Allen's World's Hair Restorer

The Genuine only in Pink Paper Wrapper
It cannot fail to Restore Grey Hair to its youthful Colour, Gloss and Beauty

IT IS NOT A DYE
It ever proves itself the natural strengthener of the Human Hair.
THERE are two special qualities which determine and fix the superiority and excellence of Mrs S. A. Allen's World's Hair Restorer:—First—its prompt quick action, and the new growth, life, and vigour that it is sure to give to the hair, never failing by a few applications to Restore Grey or White Hair to its Youthful Colour, imparting to the hair a delightful aroma, fresh, delicate, and unchangeable in any climate. Second—its easy application without any previous preparation of the hair; without that sticky and disagreeable sulphur odour found and complained of in other preparations. It never stains the skin or linen. It retains the hair in any desired position, and is cooling and cleaning to the scalp.
Use no other Preparations with it, not even Oil or Pomade or Zylo-Balsamum
To Restore Grey Hair, Mrs. S. A. Allen's World's Hair Restorer is the best.
Because it is made from Choice Materials and prepared with the utmost Care and Skill.
Because over Forty Years the Favourite Preparation, enjoying by far the Largest Sale, it must be the Best.
Because it Does Not Dye the Hair, but Strengthens it. Grey Hairs soon Disappear.
Because by its Gentle Tonic Action the Roots are strengthened—New Life, and Hair Natural Colour.
Because the Soft and Silky Texture of Healthy Hair follows its use.

THE HAIR
Its Beauty can be Restored and Preserved.

"Beautiful Hair, Nature's Crown, Luxuriant and Beautiful Hair"

It cannot truthfully be said that at any age, period, or condition of life the Hair can or should be allowed to take care of itself, and requires no aid to stimulate and maintain its growth

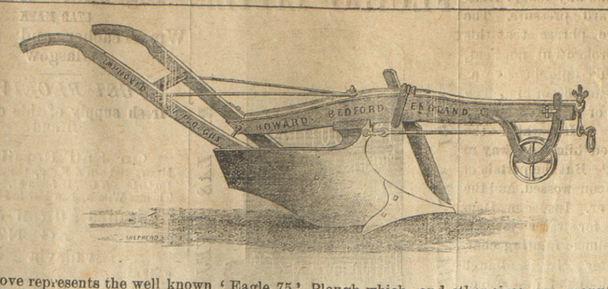
HOWARD'S IMPROVED AMERICAN PLOUGHS



The above represents the well known 'Eagle 75' Plough which, and other sizes, are manufactured by J. & F. HOWARD in the highest style of workmanship, and tens of thousands are in use. Several manifest improvements have been introduced. As shown in the engraving, the body clips the beam, and the 'centre draught' is also taken from the strongest part of the iron body,—thus giving an additional security against the beam breaking at the bolt holes—a very common occurrence with American made Ploughs.
The beam is made of Oak, and can if required be fitted with a steel plate on each side.
The shares are hardened upon J. & F. HOWARD'S well known patented *water-chill* process, which renders them not only tough and hard, but ensures their wearing better and longer than made when by any other process.
Prices of the various sizes, Nos. 19, 19½, 25, 26, 55, 75, &c., sent on application.

The above Implements kept in Stock by the Principal Hardware Merchants.
